

For 6 months on **Capital Car Shops** (November thru April)

Capital Car Shops puts your block ad on the right side of the web site and list you as a "New Vendor" in my newsletter that reaches 4,000+ car folks (I include a few lines describing what service you provide and a link to your web site) This is \$20 per month or \$120 for the car show season. If you have a series of restoration pictures you have the option to advertise in the middle of the page instead of on the extreme right side. Send me the photos and I will enter them in a album and put you on the top of the list.

For 6 months on **Capital Car Shows** (May thru October)

Capital Car Shows puts your block ad on the right side of the web site and list you as a "New Vendor" in my newsletter to 4,000+ car folks (I include a few lines describing what service you provide and a link to your web site) This is \$20 per month or \$120 for the car show season.

If you want to advertise on the right side AND on the page "Restoration Services" (link is on top of page) the rate is \$180

On the restoration page I give you a album to put pictures of your work in so folks can see them.

As an example for **Albany Radiator**:

I put pictures of radiators in his album on that Restorations Services page and consequently he received business from it. He is extremely happy and has been with me for several years.

You can see my hit counter on the bottom of the page (gets hundreds of hits per day)

Thanks

Bill Schroeder
